13 09 SDD&L OEPA Oversight Costs 2012-2013.xls

Leslie,

Please see the attached document for OEPA's oversight costs from 8/15/12-8/14/13.

Leslie,

Everyone that has worked on it has signed off on their time accounting system reports, there were a few changes that had to be made so it had to be sent back to central office. I haven't heard anything back from central office, but I sent the corrections yesterday. There were only a few things that needed to change so it shouldn't take long. I expect to have them early next week and will follow up Tuesday with them if I don't.

I also talked to Mark about possible ground water or risk assessment review for the OU2 WP. I don't think we will need to task our ground water person because there isn't anything on ground water in the WP (it just says that ground water will be investigated after the OU1 work). We will not have a risk assessor look at the WP either, so I will definitely be able to have the OU2 WP reviewed in 3-4 weeks.

Hi Maddie,

Just wondering if you've been able to figure out who does those activity reports. I think my deadline for responding to the oversight bill is 9/23, so I'm hoping to get it next week, if possible.

Hi Maddie,

Every year I have to ask you for a record of the work done by OEPA in the past year on SDDL, because we are preparing the oversight bill to go to the PRPs and we always need supporting documentation. The time period I need documentation for is between 8/15/12 and 8/14/13.

Attached is what Laura sent me previously. Is this something you can generate?
